RE: Name Variations and Diminutives File

Dear Sir:

The Arizona Department of Public Safety (DPS) Intelligence Division is in the initial phases of converting from a Data Base Management System to an Artificial Intelligence (AI) Investigative Research System. In an attempt to identify suspects and involved parties, names become an important part of an automated search as your agency knows from past experience.

The DPS is requesting assistance in locating a program that when given a name, will provide all known name variations and diminutives.

In Arizona there is a large and ever growing group of Latinos to include Cubans. In addition we are experiencing an influx of Middle and Far East immigrants, and to some extent orientals. Addressing automated name searches of these groups is becoming more difficult on a daily basis.

The State of Arizona does not have a large tax base from which to develop such a program. That is why I am asking for assistance from your agency as I understand your agency has such a program in operation.

Any assistance in this matter would be sincerely appreciated.

Frank S. Root, Captain  
Commander, Intelligence Division
